Dear Sirs:

Park Inc has provided valet parking service for events at our museum for the last year. I heartily recommend Park Inc to museum rental clients when they inquire about valet services for their private events. A key to this success is the area manager, Nick Pitts., whom I have found to be particularly professional, both during the planning and execution of parking services for events. Under his supervision, Park Inc has always delivered the required amount of staff for an event without excuses, and they arrive on time, ready to work and offer cordial, efficient parking services. Once, there was a miscommunication, and before I was even aware of the situation, it was solved by Nick's resourceful actions.

When the need arises for valet parking in the future, I won't hesitate to call Park Inc, and I wish you the best of success with future business ventures

Sincerely,

Kathy Wright
